## QUALITY POLITICY

Below are the cornerstones of DELTA MECCANICA's Quality Policy:

- Consolidate the position achieved on the market and seek new opportunities to improve the position on foreign markets, carefully taking care of the Company's commercial image and consolidating and strengthening partnership agreements with companies operating in the Broadcast and radio frequency sector.
- Expand the range of products/services offered.
- Continuously improve the ability to quickly follow customer requests (reliability, flexibility, delivery times, prices), confirming the image of a "lean" company capable of providing prompt responses to customers.
- Guarantee a high quality standard in every phase of the company processes through careful communication with customers and the continuous optimization and valorisation of internal resources, so that everyone, at every operational level, can contribute their own experience to improve the quality of products supplied
- Continuously monitor and improve business processes in terms of effectiveness and efficiency to reduce costs and remain competitive.
- Strengthen the involvement of people in the application of the quality management system, developing awareness that the activities carried out can significantly influence the quality of products, services and requiring self-control and continuous improvement from everyone.
- Continuously monitor and improve company processes in terms of effectiveness and efficiency and ensure the availability of adequate machinery, tools, environments, qualified, professional and competent personnel.
- Respect the mandatory regulations.
